

```
utils::function_decay  
< std::remove_pointer  
_t< std::remove_cvref  
_t< T > > >
```

```
utils::function_decay< T >
```

A diagram showing a central template specialization box on the right with two blue arrows pointing left to two more general template boxes. The top arrow points to a box with nested std::remove_* and T types. The bottom arrow points to a box with decltype(&T::operator()) and T.

```
utils::function_decay  
< decltype(&T::operator())>
```
