

```
utils::meta::detail  
::map< Trait, std::tuple  
< Tuple, Tuples... >, std  
::make_index_sequence< std  
::tuple_size_v< Tuple > > >
```

```
utils::meta::map< Trait,  
Tuple, Tuples >
```

A blue arrow points from the public function box on the right to the detail namespace function box on the left, indicating that the public function is implemented by the detail function.
