

```
std::integral_constant  
< std::size_t, (Idx >= 0)  
? Idx : (Idx + std::tuple  
_size_v< Tuple >)>
```

```
utils::meta::actual  
_index< Tuple, Idx >
```

A blue arrow points from the function call in the right box to the function definition in the left box, indicating that the code on the right is a call to the function defined on the left.
