

```
formatter< S::base  
_string_view_type, S  
::value_type >
```

A diagram illustrating inheritance. A light gray box at the top contains the code for a custom formatter. A dark gray box at the bottom contains the code for std::formatter. A blue arrow points from the bottom box to the top box, indicating that the custom formatter inherits from std::formatter.

```
std::formatter< S,  
typename S::value_type >
```
