

utils::default_binary
_op_traits

```
graph BT; A["utils::shift_behavior<br>::default_binary_op_traits"] --> B["utils::default_binary_op_traits"]
```

The diagram illustrates an inheritance relationship. A white box at the bottom, representing the base class `utils::shift_behavior::default_binary_op_traits`, has a blue arrow pointing upwards to a gray box at the top, representing the derived class `utils::default_binary_op_traits`.

utils::shift_behavior
